

Instructions

1. Slide the buttons next to the top light bulbs to unlock the mirror panel. This panel can be used independently.

2. Install batteries on back of mirror.

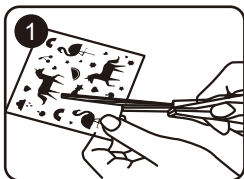

3. Adjust the supporting leg on back of mirror to stand alone.

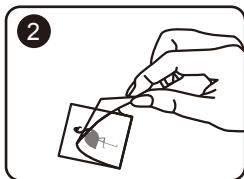

4. Press button on right of lighting panel to turn on/off lights.

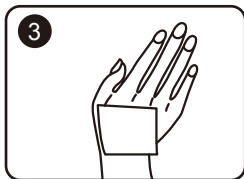

- Do not look at the lights directly.
- Do not install or take out the light panel and batteries without adult supervision.
- Close the handheld case slowly to avoid injury.

1. Cut out the tattoo graphic of your choice. Make sure skin is clean and dry.

2. Remove the plastic film on sticker.

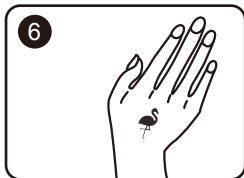

3. Put tattoo face down on skin and apply pressure for 30 seconds.

4. Wet the tattoo thoroughly with a sponge.

5. Peel off the paper backing.

6. Wait for the tattoo to dry out itself.

How to remove:

Apply baby oil on the tattoo. Wait for 10 seconds. Then rub gently and repeatedly with more baby oil until removed.

Warning:

Do not apply tattoo to sensitive skin or near eyes. If irritation occurs, wash with soap and water, and seek medical attention immediately.
