

# I002940 Genio Rechargeable LED Portable Lamp

**Indoor Use Only**

## 1. Install the Genio App and register Account

For the best experience, download the "Mirabella Genio" app to your smartphone from the App Store or Google Play, or you can also scan the QR code below, the app icon will be displayed after installed successfully

Launch the app from your smartphone and click the Sign Up button. Follow the on-screen instructions.

## 2. Charging the Light.

Before using this product for the first time, please fully charge it using the supplied USB cable.

It takes approx. 2 hours to fully charge the Battery.

While charging the red light will be displayed, once fully charged, a Green light will appear. Run time of the light is approx. 10hrs.

## 3. Pairing using Mirabella Genio App

1. Press the on/off switch and wait for the portable lamp starts to blink (approx. 2 blinks per second)

2. Ensure your mobile phone is connected to 2.4GHz Wi-Fi network. *(5GHz is not supported and it should be disabled on the router setting during pairing, once the unit has been paired, 5GHz can then be re-enabled).*
3. Launch Mirabella Genio app, tap on plus symbol “+” **(located top right hand corner)**
4. Go to Smart Lighting -> Genio lighting devices
5. Follow the App instruction to finish the pairing process

If the lamp doesn't blink rapidly when first power on, please try power off then power on /off 3 times and wait for it to start blink or try power on and hold the Mode button

#### 4. Trouble Shooting

If after the 100% countdown you receive a “time out” or “device not found error” this is an indication that the app failed to communicate with the cloud services.

Please ensure

1. The light is blinking rapidly (2 blinks per second)
2. Disable the 5GHz Wi-Fi signal on the router setting.

For instructions on how to disable your 5 GHz Wi-Fi network – Please contact your internet /router provider.

I am using Telstra NBN, I disabled the 5Ghz and I still cannot get it to pair?

Please follow the Guest Network pairing instructions on <https://mirabellagenio.net.au/faqs>

If you have done all the above, ensuring that the 5Ghz is disabled, but still failed to connect, then your modem could not be incompatible with smart device.
