Bluetooth connection

If you have used Bluetooth connection before, as soon as you switch on the remote control, the system will start searching for the device last connected. When the device is found, it will re-connect automatically.

If you want to switch between devices, you have to turn off Bluetooth on the device last connected.

NOTE: Only one Bluetooth device can be connected to the remote control at one time

First Bluetooth connection

1. Insert the 2 x AAA batteries (not included) into the battery compartment inside the back of the remote control, ensure the polarity of the batteries match the polarity inside the battery compartment. The blue LED light starts flashing
2. Turn on Bluetooth on your smart phone. Refer to its user manual for instructions on pairing and connecting Bluetooth devices.
3. Select "KM43033041" from the device list.
4. The blue LED stop flashing and stay on when connected successfully.

If you lose connection, press any remote control button to reconnect.

Use for cell Phone

1. Turn on your smartphone, make sure the Bluetooth connection is established and open your camera app.
2. Mount the universal phone clip on the tripod stand with vertical or horizontal position.
3. Adjust the width/length and place your smart phone in the phone holder.
5. Unfold the tripod and place it on a flat surface.
6. Press either of shutter button to take a picture.
7. After use, push the ON/OFF switch of the remote control to position OFF.

Please note:

The remote control automatically switches to sleep mode in 1 min and can be reactivated by pressing any remote control button.
