

6+ YEARS

Jumbo Snakes & Ladders

INSTRUCTIONS

HOW TO PLAY

1. Place the pegs in each corner of the play mat to secure the play mat to the ground.

2. Each player chooses different pieces and places them next to the play mat. Players take turns to roll the dice and move their piece forward according to the number rolled. Each player only plays once per round.
3. Players may not move to the circle occupied by other players. Any player who moves to the occupied circle must return to the circle they were in before and lose their turn.
4. If the player lands on a circle with a ladder, the player moves up the ladder and places their piece in the circle at the top of the ladder.
5. If the player lands on a circle with a snake head, the player moves down the snake and places their piece in the circle at the bottom of the snake.
6. The first player to reach the "WINNER" circle by accurately rolling the dice will win the game. If a higher number is rolled, the player will lose their turn.
