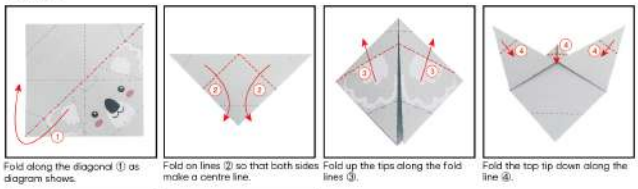
Koala

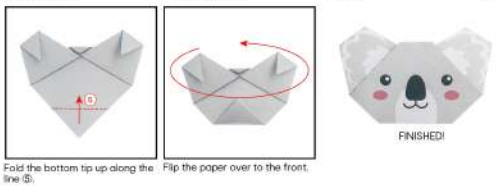


Fold along the diagonal ① as diagram shows.

Fold on lines ② so that both sides make a centre line.

Fold up the tips along the fold lines ③.

Fold the top tip down along the line ④.

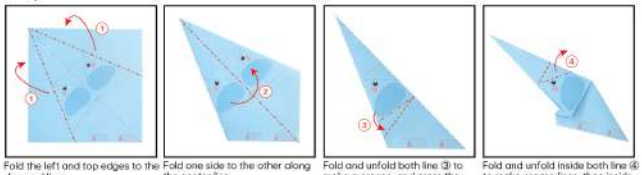


Fold the bottom tip up along the line ⑤.

Flip the paper over to the front.

FINISHED!

Elephant

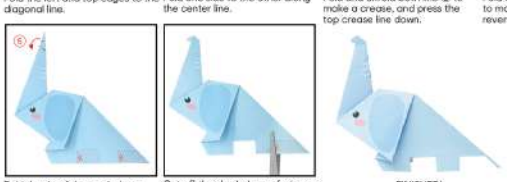


Fold the left and top edges to the diagonal line.

Fold one side to the other along the center line.

Fold and unfold both line ③ to make a crease, and press the top crease line down.

Fold and unfold inside both line ④ to make crease lines, then inside reverse fold.

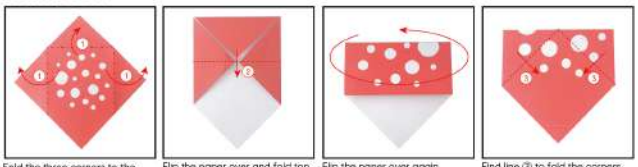


Fold the tip of the trunk down.

Cut off the shaded area (scissors not included).

FINISHED!

Mushroom

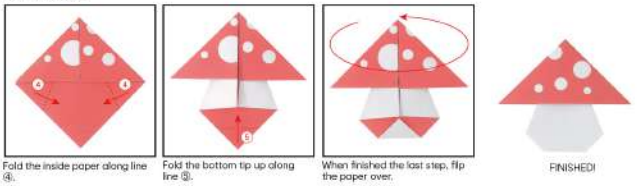


Fold the three corners to the middle where the diagonal creases intersect.

Flip the paper over and fold top half down along line ②.

Flip the paper over again.

Find line ③ to fold the corners down.



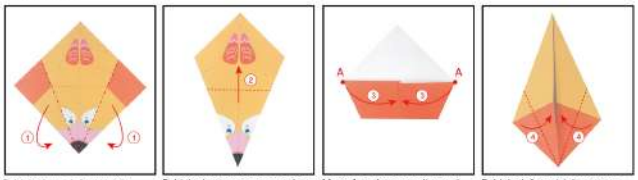
Fold the inside paper along line ④.

Fold the bottom tip up along line ⑤.

When finished the last step, flip the paper over.

FINISHED!

Toucan

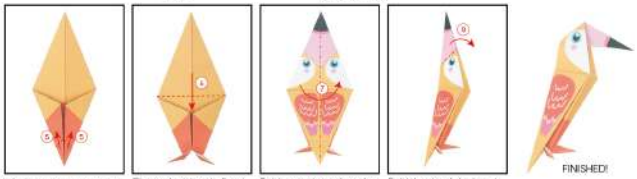


Fold the lower left and right edges down to the diagonal line.

Fold the bottom corner up along line ② and then flip the paper over.

Move A to the center line and press the paper down which will get a triangle.

Fold the left and right corners inward toward the center line.



Lift the bottom tip up and fold along line ⑤.

Flip up the triangle flaps down.

Fold one side to the other along the center line.

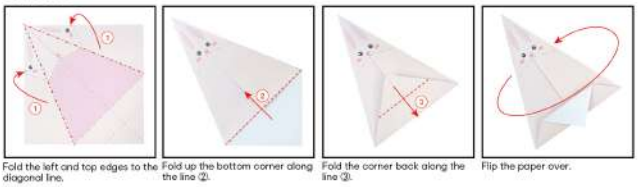
Fold the tip of the head down.

FINISHED!

297x210mm 反

anko

Rabbit

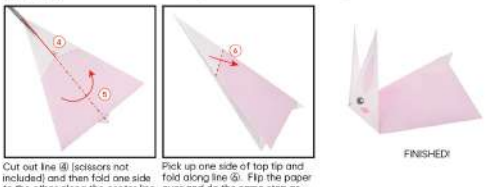


Fold the left and top edges to the diagonal line.

Fold up the bottom corner along the line ②.

Fold the corner back along the line ③.

Flip the paper over.

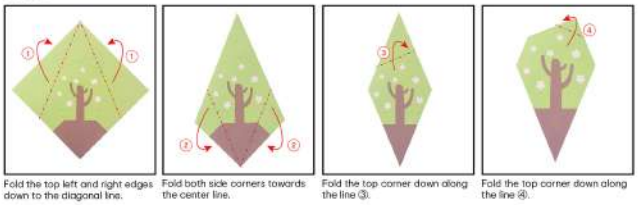


Cut out line ④ (scissors not included) and then fold one side to the other along the center line.

Pick up one side of top tip and fold along line ⑤. Flip the paper over and do the same step as other side.

FINISHED!

Tree

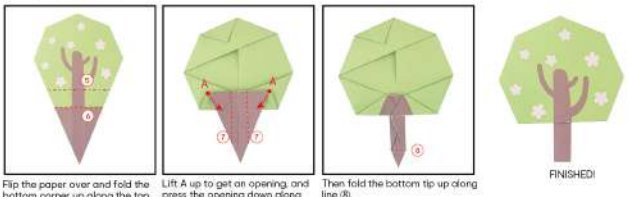


Fold the top left and right edges down to the diagonal line.

Fold both side corners towards the center line.

Fold the top corner down along the line ③.

Fold the top corner down along the line ④.



Flip the paper over and fold the bottom corner up along the top line ⑤, then fold back along line ⑥.

Lift A up to get an opening, and press the opening down along the line ⑦ for both sides.

Then fold the bottom tip up along line ⑧.

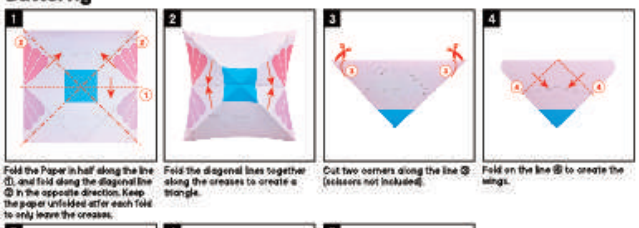
Butterfly

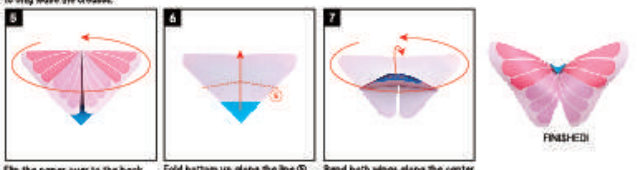


Fold the Paper in half along the line ①, and fold along the diagonal line ② in the opposite direction. Keep the paper unfolded after each fold to only leave the creases.

Fold the diagonal lines together along the creases to create a triangle.

Cut two corners along the line ③ (scissors not included).

Fold on the line ④ to create the wings.



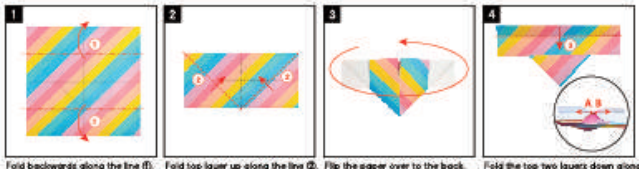
Flip the paper over to the back.

Fold bottom up along the line ⑤.

Bend both wings along the center line and stick the bottom tip to the front, then flip the paper over to the front.

FINISHED!

Heart

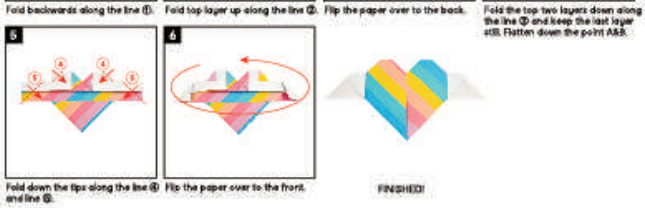


Fold backwards along the line ①.

Fold top layer up along the line ②.

Flip the paper over to the back.

Fold the top two layers down along the line ③ and keep the last layer still. Flatten down the point A&B.

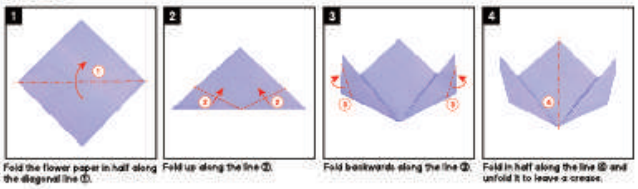


Fold down the tips along the line ④ and line ⑤.

Flip the paper over to the front.

FINISHED!

Flower

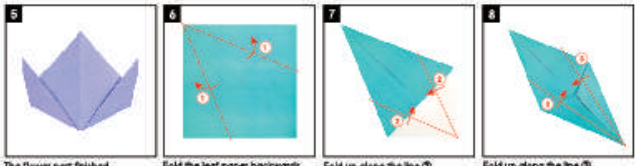


Fold the flower paper in half along the diagonal line ①.

Fold up along the line ②.

Fold backwards along the line ③.

Fold in half along the line ④ and unfold it to leave a crease.

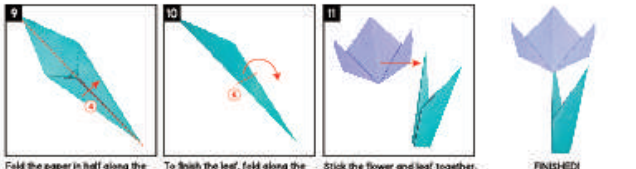


The flower part finished.

Fold the leaf paper backwards along the line ①, then flip over to the back.

Fold up along the line ②.

Fold up along the line ③.



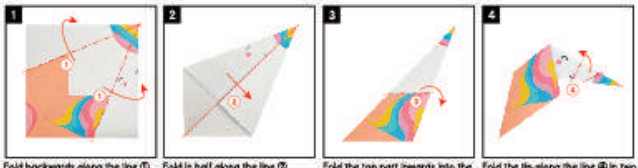
Fold the paper in half along the line ①.

To finish the leaf, fold along the line ② so the two ends point in the same direction.

Stick the flower and leaf together.

FINISHED!

Unicorn 1



Fold backwards along the line ① and flip it to the back.

Fold in half along the line ②.

Fold the top part inwards into the bottom part along the line ③ in both sides, making a valley fold.

Fold the tip along the line ④ in two opposite directions.

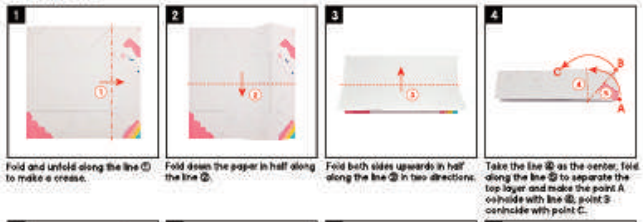
297x210mm 反

anko

Fold backwards along the line ⑤.

FINISHED!

Unicorn 2

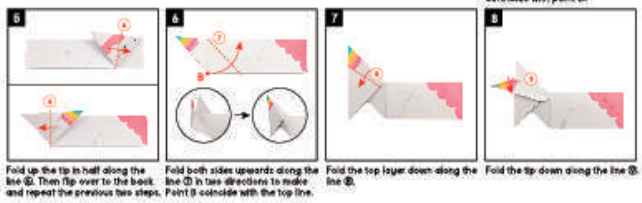


Fold and unfold along the line ① to make a crease.

Fold down the paper in half along the line ②.

Fold both sides upwards in half along the line ③ in two directions.

Take the line ④ as the center, fold along the line ④ to separate the top layer and make the point A coincide with line ④, point B coincide with point C.

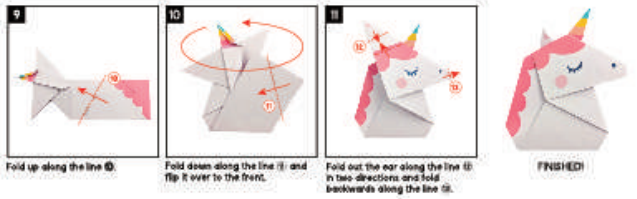


Fold up the tip in half along the line ⑤. Then flip over to the back, and repeat the previous two steps.

Fold both sides upwards along the line ⑦ in two directions to make Point B coincide with the top line.

Fold the top layer down along the line ⑧.

Fold the tip down along the line ⑨.



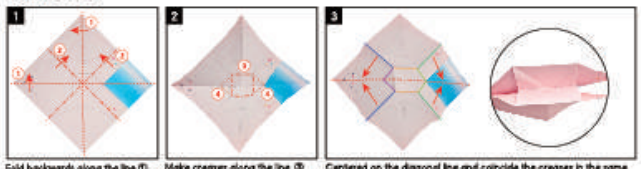
Fold up along the line ⑩.

Fold down along the line ⑪ and flip it over to the front.

Fold out the ear along the line ⑫ in two directions and fold backwards along the line ⑬.

FINISHED!

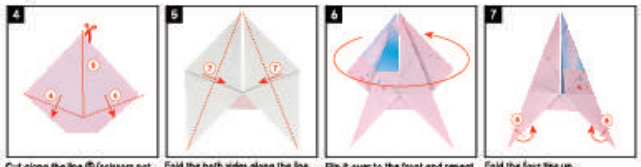
Unicorn 3



Fold backwards along the line ① and upwards along the line ②, keep the paper unfolded after each fold to only leave the creases.

Make creases along the line ③ and line ④.

Centered on the diagonal line and coincide the creases in the same colour.

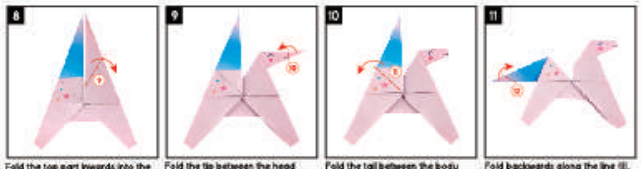


Cut along the line ⑤ (scissors not included) and fold the top layers down along the line ⑥.

Fold the both sides along the line ⑦.

Flip it over to the front and repeat the previous two steps.

Fold the four tips up.



Fold the top part inwards into the bottom part along the line ⑨ in both sides, making a valley fold to show the unicorn head.

Fold the tip between the head along the line ⑩ in two opposite directions.

Fold the tail between the body along the line ⑪ in two opposite directions.

Fold backwards along the line ⑫.

Stick the horn paper on with double-sided tape.

FINISHED!
