

Texture Painting Art Kit Instruction Manual

Kit Includes

- › 1 x 40cm x 28cm stretched canvas
- › 1 x jar of modelling paste
- › 3 x paint pots
- › 4 x wooden spatula sticks
- › 1 x pattern scraper
- › 1 x paint brush
- › 1 x instruction sheet

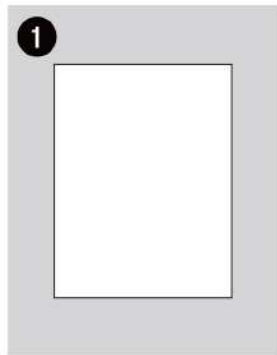

Tips

- › Wearing gloves is recommended.
- › If you're not happy with your texture art markings, simply use the wooden craft sticks to smooth the modelling paste and try again.
- › Use more modelling paste to create thicker textures.

How To Create A Texture Painting

1 Begin by laying your canvas on newspaper or something to protect your surface and ensure easy clean up.

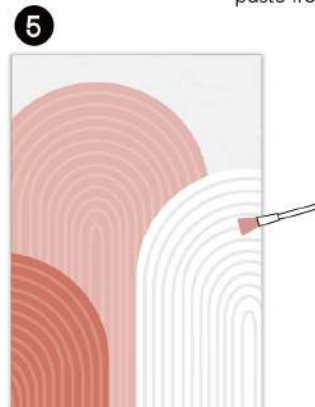

2 Using a wooden craft stick, coat the entire canvas with modelling paste and smooth it to your desired background texture.

3 To make patterns, use the pattern scraper by pressing down and gliding it through the modelling paste. Remove any excess modelling paste from the pattern scraper.

4 Once you have completed your patterns, leave it to dry overnight.

5 To finish your texture art canvas, paint the dried modelling paste and leave to dry. Once dry, your canvas is ready to display.
