KNOW YOUR TRAVEL FOIL SHAVER

BEFORE FIRST USE

The appliance has been packaged carefully to ensure the product reaches you in good condition. If the product has been damaged, dropped, has a malfunction in any way, do not use.

Carefully unpack your appliance. Make sure you do not discard any packaging material until all parts of the appliance have been found.

HOW TO USE YOUR TRAVEL FOIL SHAVER

We recommend a dry shave before you wash. After washing, your skin is slightly swollen. As a result, shavers are often unable to reach the entire length of your beard hair so the shave will be less thorough.

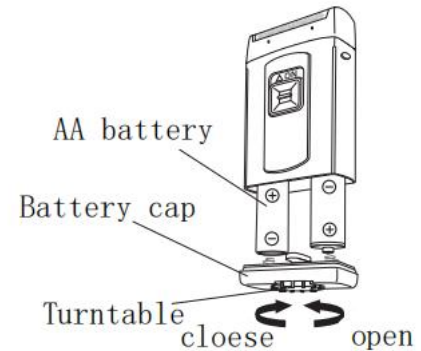

For a shave, follow the steps below:

Open the battery cap and insert 2 AA Alkaline battery (not included) respecting the polarity then close the case.

1. Remove the protective cap.
2. Push down and slide forward the On/Off switch to turn the shaver on.
3. Use your free hand to stretch the part of your face you intend to shave.
4. While applying gentle pressure, move the shaver head perpendicular to the direction of hair growth.

NOTE: Applying excessive pressure does not provide a closer shave.

5. After a few strokes, use your free hand to check the results and repeat step 4 if necessary.
6. Switch the shaver OFF once you have finished shaving.
7. Put the protective cap on the shaver every time after use to prevent damage.

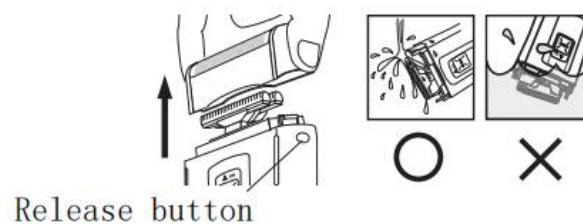

CLEANING AND MAINTENANCE

Be sure to turn off the switch during maintenance.

1. Press the release button (on both sides) and pull off the shaver head.

CAUTION! The blades are extremely sharp! DO NOT touch the blades.

2. Rinse the shaver head and inner blades with clean water or running water.
Do not let shaver sink into the water.
3. When washing is not available, use the cleaning brush to dust off the hair.
4. Allow the shaver head and inner blades dry completely.
5. Reassemble the shaver head to the body.

BATTERY DISPOSAL

Batteries contain substances harmful to our environment. Do not dispose of the appliance with the battery inside. Remove the battery and hand it over to your local council recycling facility for environmental protection.
