

JUICY FRUITY

LIP GLOSS KIT

INSTRUCTIONS

Tip: For best results, please read all instructions thoroughly before beginning projects.

NOTE: ADULT SUPERVISION IS REQUIRED FOR THIS PROJECT.

WHAT YOU NEED

- 2 lip gloss tubes
- 2 lip balm pots
- Sticker sheet
- Citrus essence
- Berry essence
- Lip gloss base
- Wax chips
- Shea butter
- Funnel
- Mixing cup
- Mixing stick
- Mixing bowl (not included)

STEPS

Start by covering your work area with some newspaper or scrap paper. Make sure to wear an apron or old clothing to protect your clothing from mess.

Lip Gloss Steps

- 1** To create your lip gloss, pour half the lip gloss base into the measuring cup. Shake the essence bottle well and add 10 drops of one flavour to the mixture. Use the spoon to mix the flavour in.
- 2** Unscrew the lid of the lip gloss tube, remove the applicator and put the funnel through the hole.
- 3** Pour the lip gloss into the funnel to fill your lip gloss tube. Place the applicator and then the lid back on.
- 4** Repeat steps 1-3 for the second lip gloss flavour. Wash the measuring cup between creating each flavour.

Lip Balm Steps

- 1** To create your lip balms, use the spoon to scoop half the shea butter into the measuring cup. Pour in half of the wax chips to the cup.

- 2 Find a cup or bowl large enough for the measuring cup to fit inside. Work out the amount of water needed to cover half the height of the measuring cup. Get an adult to fill the cup or bowl up to that level with boiling water.
- 3 Place the measuring cup inside of the cup or bowl with boiling water. Use one hand to firmly hold the measuring cup down and the other hand to stir the mixture with the spoon. As you stir the shea butter and wax chips will soften and melt together. If water cools and wax chips are not completely melted, repeat step 2.
- 4 Keep stirring until the formula turns to liquid. Shake the essence bottle well and add 10 drops of one essence and mix into formula.
- 5 Pour your formula into the lip balm pot, use the spoon to scrape the sides of the container.
- 6 Repeat steps 1-5 to create the second lip balm flavour. Wash the measuring cup between creating each flavour.
- 7 Let the lip balm set for 2 hours with the cap of the pot off. Lip balm hardening time may vary depending on the temperature of the room.

Now you can decorate your lip gloss tubes and lip balm pots with fruity stickers.

Your lip gloss and lip balms are ready to apply to your lips.

The concentration of individual ingredients in the product will vary based on how it is made/mixed.
