Activate touch function (IOS system)

Step 1. Please upgrade your iPad system to **IOS 13.0 Version or above**

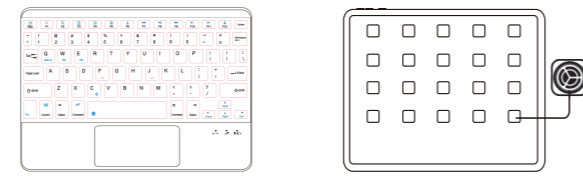

Step 2. go to the iPad accessibility setting to activate assistive touch function: Setting - Accessibility - Touch - Assistant Touch

Note: This operation is not required for Android / Windows system devices

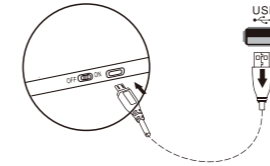

Fn + **Command** : Control keyboard touchpad switches

Bluetooth connection steps

1. Turn on the keyboard, then press **Fn** + **Command** to open Bluetooth signal. Bluetooth indicator of the keyboard will flash blue light.
2. Open your Tablet, select 'Setting - Bluetooth'.
3. Open your Bluetooth signal, keep the Bluetooth showing "on" search state.
4. In the list of available, select the one that says "Bluetooth 3.0 keyboard". Bluetooth signal light goes out, connection is successful.

Recharge the keyboard

1. If the keyboard battery light indicator is flashing red, please recharge the keyboard.
2. Insert the USB charging cable at the keyboard and USB port on the computer, indicator becomes steady Red light, showing it is recharging the keyboard. When the red light disappears, it means the keyboard is fully charged.
3. The keyboard can be used for about 3-4 hours to fully charge.
4. Customer can use a 5V,1A charger to charge.

Maintenance:
 Preserve the keyboard under normal temperature, recharge under normal voltage.
 If do not use for long time, need to timely charge. (About once in a week)
