

DIY Latch Hook Kit Instruction Manual

Kit Includes

- > 6 x colours of yarn
- > 1 x printed mesh canvas
- > 1 x latch hook tool
- > 1 x instruction sheet

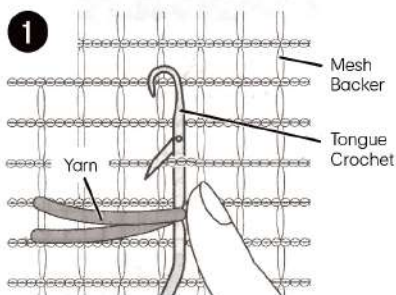

Tips

- > Precut yarns (6cm) included for the main body.
- > Always start making your first knot at the bottom, working your way up.
- > The latch tool knots the yarn and secures it in place with one movement. This is simply repeated for every hole in the mesh.

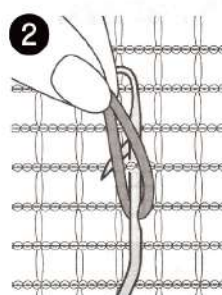

Guide Image

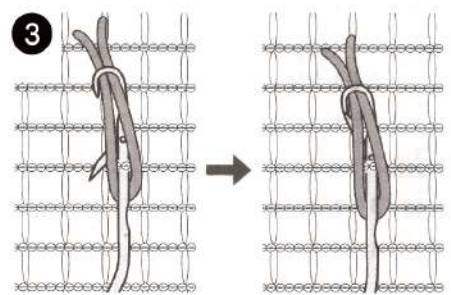

How To Make A Latch Hook Knot

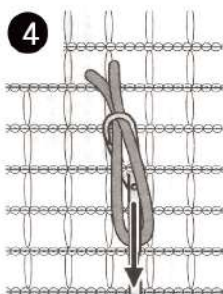

Fold a pre cut yarn in half and place it in the groove of the latch tool. Then insert the top of the latch tool through a hole in the mesh.

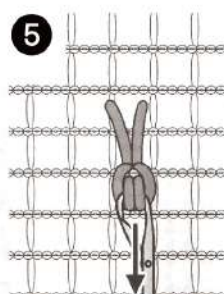

Next, hook the yarn around the latch tool.

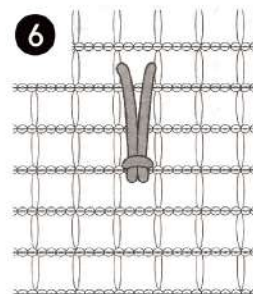

Place the yarn between the hook and the tongue while pulling the needle down a little.

Continue to pull the needle down slowly.

The yarn will pull through the hole to the back side of the mesh.

Pull the yarn gently to tighten the knot, then adjust the length and shape. Match the yarn colours to the printed pattern and repeat steps 1-5 to fill the mesh.
