

Fashion Design Kit

1

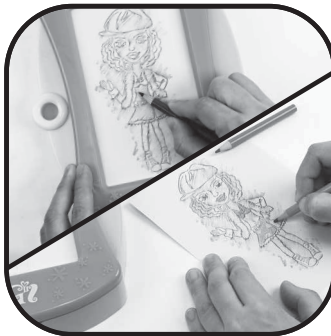

Choose different stencils from the drawer and place them onto the tracing studio. Mix and match the stencils until you are happy with the design of your choice. Remember to put the stencils in the correct sequence from top to bottom: Hair, face, body, legs.

2

Lift up the frame to open. Take the stencils out of their support and put them in the same order underneath the frame. Place a sheet of paper between the stencils and the frame. Close the frame to keep everything in place.

3

Shade the outline with a coloured pencil. Remove the paper when you are done and colour it. Use colour pencils to complete your fashion look. By using different colours, you can make your very own unique fashion designs!
