

# WARNINGS!

 This product is not to be directly connected to the mains supply. This item can be used with a compatible mains powered transformer. This must be a short-circuit proof safety isolating transformer according to IEC 61558-2-16 or a toys transformer according to IEC 61558-2-7. Max rated output: 5V DC. LEDs are not replaceable. The crossed out wheellie-bin symbol on this product is to remind you that waste electrical and electronic products, batteries and accumulators should not be disposed of with household waste. If you are unable to re-use or recycle your article it should be disposed of at a civic amenity site/local authority recycling facilities. Packaging (and instructions if included) must be kept since they contain important information.

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

**KMART NZ:** 0800 945 995  
**TARGET AU:** 1300 753 567

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

Max Rated Input: 5V DC 1100mA
