INSTRUCTION MANUAL

back side

**Battery and appliance disposal:**

To ensure the proper operation of this appliance, please read this instruction manual carefully before using the appliance and save it for future reference.

**⚠ WARNING**

- Check the appliance before use; do not use it if there are any cracks, gaps, or other damage.
- Make sure the mirror is not placed in a location or position where it can reflect sunlight, as reflected sunlight can cause fire.
- Do not attempt to repair, disassemble, or modify the appliance yourself to avoid accidents.
- The light source of this mirror is not replaceable; when the light source reaches the end of its life, the whole mirror must be replaced.
- For indoor use only

**⚠ CAUTION**

- Avoid touching the mirror with sharp objects to prevent scratches that might affect its use.
- This appliance has a lithium battery. Do not place or store the appliance for long periods in a hot or humid environment. If you do not intend to use the appliance for a long time, store it only after it is fully charged.
- This appliance contains battery and LED lights that are non-replaceable.
- Ensure using SELV charging adapter which is compatible with a 5V/1A rating.

**Specifications:**

- Charging Voltage/Current: 5V == /1A
- Type of Battery: Li-polymer 3.7V 2000mAh
- Ta: 25°C

**Product Description (picture 1):**

- ① Normal mirror
- ② Switch
- ③ LED light
- ④ Flexible pole
- ⑤ Base
- ⑥ Charging port
- ⑦ Charging indicator
- ⑧ Type C cable

**Picture 1**

**Step 1**  
Place the base on a smooth table top and then insert the pole into the card slot of the base.

**Step 2**  
Rotated the pole counterclockwise and then fixed when you will hear sound of clicking.

**Step 3**  
Place the mirror on the smooth table top, adjust the pole to the shortest, press the base with hands and then insert it into the claw on the back of the mirror. Attention: Place mirror at the table, then insert the pole to mirror claw. To avoid the mirror broken, don't press the mirror face to assemble.

**Using the Appliance:**

※ Charging the appliance takes about 3-4 hours, and it can be used continuously for up to 6-8 hours for the lightest model. The charging indicator will be red while the mirror is charging and will change to green, when fully charged.

- 1) Plug the small end of the USB cable into the port located in the behind of the mirror. Charge only with supplied USB cable
- 2) Press the switch: white light, warm light, warm white light, OFF (long press to adjust the brightness)
- 3) Mirror swivels 360degrees for horizontal or vertical use
