

BATTLE CARS TWIN PACK

The battle is on!
Start your engines

VS BATTLE

Collision point.
Car immediately bounces.

How to pair

1. Turn on the vehicle first, then turn on the transmitter.
2. When the transmitter lights are flashing, pairing is happening.
3. When lights stop flashing, pairing is complete.
4. If pairing is not complete within 8 seconds, please turn off both the vehicle and transmitter and re-start the pairing process.
5. When the pairing process is complete, whenever you switch the vehicle and transmitter on and off, it searches for the memorised code and will only lock onto the transmitter signal containing that code.
6. If you have more than two vehicles, please pair them one by one. When the second vehicle is pairing, always keep the first vehicle and transmitter on.
7. Please turn off both the vehicle and transmitter and re-start the pairing process if you are changing to another 2.4GHZ transmitter.

3.7V Li-ion Battery and USB charger
(INCLUDED)

Open the lock before play. Take care of the
ejecting lever as it may open.
If not playing, please lock the ejecting lever.

Charging:

1. Open battery cover and separate rechargeable battery from connector.
2. Connect USB charging cable with rechargeable battery first, then plug the large end of USB cable into a 5Vd.c. 2A charger (not supplied) or USB port only. The red LED light on USB charging cable will light up while charging.
3. After charging has finished, the LED light will turn off.
4. Disconnect USB charging cable from USB port and disconnect the rechargeable battery with USB charging cable.
