RC PYTHON

BATTERY INSTALLATION:

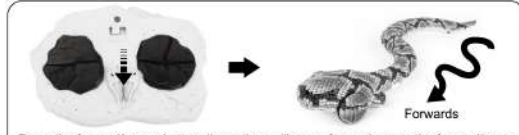

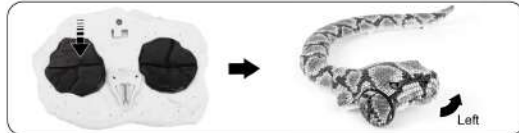

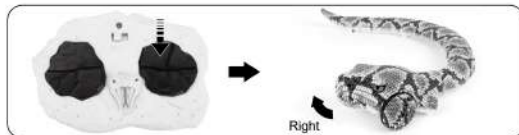

- 1 - Open the battery compartment.
- 2 - Insert batteries into the correct + and - polarities.
- 3 - Close the cover.

HOW TO USE:

1. Turn on the python, and then turn on the transmitter.
2. Press the control button of the transmitter to pair to the python.
3. When the python is functioning, that means pairing has been successful.
4. If you have more than two pythons, please pair one by one. When the second python is pairing, please always keep the first python and transmitter on.
5. Please turn off both the python and transmitter and re-start the pairing process if you are changing to play with another 2.4GHz transmitter.

Note: Python will automatically switch to swim mode when placed in water.

Press the forward/pause button, the python will move forward, press the forward/pause button again, the python will stop.
