Basic Crochet Stitch Diagram

Magic Ring

Loop the yarn around the hook with the working yarn on top. Insert the crochet hook into the loop. Hook the working yarn and pull through the loop. Pull the yarn up. You now have 1 loop on the hook. Yarn over and pull through loop on hook to chain 1.

Chain Stitch (Abbreviated 'ch')

The chain stitch is the basis for all crochet which is also called a foundation chain. The first step is to create a slip knot on your hook. The second step is to move your hook under your yarn to create a yarn over. The third step is to move the hook back through the loop already on your hook, making sure to catch the working yarn. You have now made your first chain. Repeat steps 2 and 3 to make more chains. Hold the stitches you've already made in your left hand close to the hook for stability.

Treble Crochet (Abbreviated 'tr')

Make a foundation chain to the required length. For a precise number of stitches, chain that many plus 2. Find the 4th chain from the hook. Yarn over and insert your hook into the 4th chain from the hook. Yarn over, then draw up a loop, there should now be 3 loops on your hook. Yarn over, then draw the yarn through 2 of the loops on your hook. There should now be 2 loops on your hook. Yarn over and then draw the yarn through the 2 loops left on the hook. You have completed the stitch and should now have 1 loop on your hook.

Fasten Off (Abbreviated 'F/O')

Once you've made your last stitch, you'll have one loop left on your hook. Cut the yarn leaving a tail approx 15cm long. Wrap the yarn round the hook and pull through the loop. Remove the hook and pull the yarn tail to tighten it up. This will create a little knot so your yarn can't unravel.
