Wooden Tower Game

Instructions

Contents: 48 wooden blocks.

HOW TO PLAY

1. Decide who goes first. Players will take turns removing one block at a time from any layer of the tower, except for the topmost completed layer.
2. On your turn, carefully pull out one block from the tower using only one hand. Try not to disturb the other blocks in the process.
3. After removing a block, place it on the topmost layer of the tower. Ensure the new layer is aligned in the opposite direction of the previous one.
4. Players continue taking turns to remove and stack blocks. The game ends when the tower collapses.
5. The last player to successfully remove and place a block without causing the tower to fall is the winner!

⚠ WARNING:
CHOKING HAZARD - SMALL PARTS.
