USER INSTRUCTIONS

1. Connect the rubber bracket to the raised part on the back of the light.

2. Fasten the light onto the saddle post.

3. Long press of the power button to turn the light on/off. Tap the power button to switch between light modes (high brightness, low brightness, slow flash, fast flash and stop).

4. Included is 1x USB charging cable. USB charge time is normally 3 hours. No light appears when the battery is fully charged.
