

# Monkey Flip Size : 21\*28.5 cm

## Colour : 1C (K)

GPF006

**3+**  
Years

## INSTRUCTIONS

### Components:

1 Plastic tree, 2 Catapults, 16 Monkeys, 1 Sticker sheet, Instructions.

### Assembly Instruction:

1. There are five sets of leaves to place on the tree. Take the large circle of leaves and hold it over the tree so the shape in the centre fits over the same shape on the top of the tree. Place the four smaller leaves on the trunk of the tree.
2. Carefully remove the labels from the sticker sheet and place them on the monkeys. Each monkey should have only 2 labels, a front and back.

### How to Play:

#### Number of players: 2

**Objective:** Be the first player to catapult all of your monkeys into the tree to win!

#### Game Rules:

1. The youngest player starts by saying "Monkeys Flip!", now both players try to catapult their monkeys into the tree.
2. **CATAPULTING THE MONKEYS:** Put your catapult in front of you and aim it towards the tree. Put one of your monkeys on your catapult. Hold the bottom of the catapult with one hand to keep it steady. With your other hand, knock down the open end of the catapult to send your monkey flying into the air! Your monkey will fly through the air and hopefully land in the tree! If your monkey does not land in the tree, check to make sure that your catapult is aimed towards the tree.
3. **LANDING THE MONKEYS IN THE TREE:** For your monkey to land in the tree correctly, it must be holding onto a branch with one or both of its arms. If the monkey is laying across the circle of leaves, it does not count. Quickly take that monkey off the tree and catapult it again! If your monkey does not land in the tree, pick it up and catapult it again. Keep picking up your monkeys that don't land correctly in the tree and catapult them until you or another player has all of their monkeys hanging in the tree.
4. **KNOCKING A MONKEY OUT OF THE TREE:** If you catapult your monkey into the tree and it knocks either your monkey or another player's monkey off the tree, the monkey that fell off the tree does not count. It must be catapulted into the tree again. If your monkey is laying across a circle of leaves and you knock another monkey off the tree with your hand when you go to pick up your monkey, you must place the monkey you knocked down back in the tree.
5. **ENDING THE GAME:** When one player has got all of their monkeys hanging correctly in the tree, that player yells, "Stop!" The other player must stop catapulting their monkeys. The player who has stopped the game and has all their monkeys in the tree wins.

**WARNING: CHOKING HAZARD**  
SMALL PARTS. NOT FOR CHILDREN UNDER 3 YEARS.

**WARNING:** DO NOT AIM AT EYES OR FACE. DO NOT USE PROJECTILES OTHER THAN THOSE SUPPLIED OR RECOMMENDED BY THE MANUFACTURER.

**CAUTION:** REMOVE ALL FIXINGS BEFORE GIVING THIS TOY TO A CHILD. AS AN EXTRA PRECAUTION, CHECK THIS TOY REGULARLY FOR SIGNS OF WEAR AND DAMAGE.

PRODUCT MAY VARY SLIGHTLY FROM IMAGE SHOWN.  
PLEASE KEEP THE PACKAGING FOR FUTURE REFERENCE.
