Paint Your Own Unicorns

8+
years

How To Paint

Use the paintbrush to paint your own design on each unicorn.

Let the unicorns dry for 24 hours after you have finished painting.

1. Put on an apron before you start painting.
2. Think before you paint and draw.
3. Use newspaper to protect the table before you start painting.
4. Close the paint lids after use.
5. Wash the paintbrush with water before you paint the other colours and wash thoroughly after each use.

TIPS

1. You can add a few drops of water to the colours if they look too dry or sticky.
2. Freely mix up colours to create new ones.
3. To protect your colours, allow the polyresin to dry for one day before using them.

⚠ WARNING: CHOKING HAZARD
SMALL PARTS. NOT FOR CHILDREN UNDER 3 YEARS.
