2. Use only under constant, competent supervision.
3. The supervisor should be within arm's reach of the wearer.

Size	Weight
M/L	15-30kg

Dress

Fit instructions: Adjust the strap, place the vest over the child's chest and arm bands over child's upper arms' to ensure a firm but comfortable fit.

Instructions for use:

1. Allow the child to enter the water, holding their hands as they do so.
2. Establish buoyancy with water level across the shoulders. The child should be in control of the buoyancy. Do not let go of your child until capable of controlling the buoyancy.
3. Encourage the child to kick in the water and to firstly move one arm then the other. This process should not be rushed. Some children will gain confidence quickly while others will require several lessons before they can move independently.
4. Once the child is independent and confident wearing this set, you can allow the child to swim on their own.

Maintenance and Storage

1. Rinse with water and air dry thoroughly before storing. Place in a dry place, with normal room conditions, and out of direct sun light.
2. Check seams and the foil regularly for tears and holes. If there are any defects, please discard the product and replace with a new one.

The product conforms to standard AS/NZS 1900.
