**CHECK BEFORE RIDING**

**COLLAR CLAMP**  
Check that the collar clamp bolt is tightened securely. This item is tightened and quality inspected at the factory; after use, periodically check the tightness before riding.

**WHEELS AND BEARINGS**  
Under normal circumstances and conditions, Street Surfing wheels and wheel bearings are maintenance free. Nonetheless, it is the responsibility of the owner or guardian to periodically inspect the wheel for wear and tear, the state for proper tightness, and bearing for ease to rotate play and loose parts. When wheel or wheel bearing develops play, friction or reduction of excess wear and replacement is necessary. Replace immediately with original Street Surfing wheels. **Warning!** New wheel bearings are considered normal wear and tear and are not covered by the Street Surfing Warranty. Wheels other than genuine Street Surfing wheels may not be compatible with your Street Surfing scooter. The use of anything other than genuine Street Surfing replacement parts may affect your safety.

**LOOSE PARTS**  
Check and secure all fasteners before every ride. Make sure that the steering tube clamps and handlebars spring buttons are locked properly in place before riding.

**SAFETY GEAR**  
Always wear proper protective equipment such as an approved safety helmet, elbow pads and knee pads. Always wear shoes. Do not use alcohol, alcohol based or ammonia based cleaners as they may damage or distort the plastic components or soften the decals or decal adhesive.

**SAFETY REMINDERS**

**CLEANING YOUR SCOOTER**  
Wipe with a damp cloth to remove dirt and dust. Do not use industrial cleaners or solvents as they may damage the surfaces. Do not use alcohol, alcohol based or ammonia based cleaners as they may damage or distort the plastic components or soften the decals or decal adhesive.

**HOW TO RIDE**  
Place one foot on the deck, push forward with the other foot. Steer. For enhanced steering, lean slightly into the direction of the turn. For controlled stops, apply the brake by squeezing on the rear fender brake. Practice applying the brake at various speeds and in an open area free from obstructions before riding around others.

**BE CAREFUL!**  
You will keep people on TV and maybe even people you know doing tricks and stunts. These are people who have been practicing on scooters for a very long time. Don't try something and you are ready. Avoid steep inclines and don't ride too fast - you can lose control and fall. Skateboard parks are not designed for scooters. Never ride in traffic or on the street and watch your surroundings for pedestrians, bikers, boarders and strollers.

**WARNING!** **Warning!** Wheels and other parts: type riding reduces your ability to maneuver and control your scooter. Take the necessary precautions, such as wearing appropriate protective gear and practicing in an area free from obstructions and other distractions. Maintain a hold on the handlebars at all times. Failure to follow these instructions may damage your vehicle and void your warranty.

**STREET SURFING LIMITED WARRANTY**  
If you ride your scooter in a manner that places large forces and stresses on the product, the scooter will not be covered under warranty. The scooter is designed to meet and exceed applicable safety standards, however the forces exerted through extreme riding could cause permanent wear or damage.

The manufacturer warrants this product to be free of manufacturing defects for a period of 6 months from date of purchase. This Limited Warranty does not cover normal wear and tear, tires, tubes or cables, or any damage, failure or loss caused by improper assembly, maintenance, or storage.

This Limited Warranty will be void if product is ever:  
- Modified in any way other than for repair.  
- Repaired.  
- Used in a manner other than for recreation.

The manufacturer is not liable for incidental or consequential loss or damage due directly or indirectly to the use of this product. Street Surfing Wotek does not offer an extended warranty. If you have purchased an extended warranty, it must be honored by the store at which it was purchased.

For your records, save your original sales receipt with this manual and write the serial number below.

**ENGLISH**

**SAFETY WARNINGS BEFORE YOU RIDE, SETUP AND USAGE INSTRUCTIONS, ASSEMBLY INSTRUCTIONS, CHECK BEFORE RIDING, SAFETY REMINDERS, LIMITED WARRANTY**

**IMPORTANT MESSAGE TO PARENTS:** This manual contains important information for your child's safety, it is your responsibility to review the information with your child and make sure that your child understands all warnings, cautions, instructions and safety facts. Street Surfing Wotek strongly recommends that you periodically review and reinforce the information in this manual with younger riders and that you inspect and maintain your child's scooter to ensure their safety.

**SAFETY WARNINGS:** Scooter riding can be a hazardous activity. Scooters can and are intended to move and it is therefore possible to get into dangerous situations and lose control or get hurt. Always ensure you are not excessively tired or do **LIKE ANY OTHER MOVING PRODUCT, USING A SCOOTER CAN BE A DANGEROUS ACTIVITY AND MAY RESULT IN INJURY OR DEATH IF YOU USE WITH PROPER SAFETY PRECAUTIONS, USE AT YOUR OWN RISK AND USE COMMON SENSE.**

**GENERAL WARNINGS:** Always wear safety equipment such as a helmet, knee pads and elbow pads. Always wear a helmet when riding your scooter and keep the chin strap securely buckled.  
- Always wear shoes.  
- Ride on smooth, paved surfaces away from motor vehicles.  
- Avoid rough terrain, drainage grates and sudden surface changes. Scooter may suddenly stop.  
- Avoid street and surfaces with water, sand, gravel, dirt, leaves and other debris. Wet weather impairs traction and visibility.  
- Do not ride at night.  
- Avoid extreme levels associated with downhill rides.  
- ADA must assist children in the initial adjustment procedures to unfold scooter, adjust handlebar and steering to height, and then to fold scooter.  
- Obey all local traffic and e-scooter laws and regulations.  
- Work on dry pavement.  
- Do not exceed 200 pounds (90 kg).  
- Do not ride with children under 7 years of age.  
- Children under 10 should ride with adult supervision at all times. All children and pedestrians should ride with adult guidance at all times.  
- Rider weight doesn't necessarily mean child is appropriate to fit or maintain control of scooter.  
- Appear's decision to allow his or her child to ride this product should be based on the child's maturity, skill and ability.  
- Refer to the section on safety for additional warnings.

**ACCEPTABLE RIDING PRACTICES AND CONDITIONS**  
Direct parental supervision is required. Scooters are **not** to be used only in a controlled environment free of potential traffic hazards and not on public streets. Do not allow your child to ride a scooter in any areas where vehicle traffic is present. Child must maintain a hold on the handlebars at all times. Never allow your child to ride on a Street Surfing scooter. Never use steep, sloped-downways, hills, roadways, alleyways or swimming pool areas. Keep fingers or other body parts away from the product when folding or unfolding. Adults must not allow children to assist in folding or unfolding the scooter.

Do not ride a scooter in wet weather. Scooters are **not** for use on solid, flat, clean and dry surfaces such as pavement or level grounds without loose debris such as rocks or gravel. Wet, slick or uneven and rough surfaces may impair traction and contribute to possible accidents. Do not ride on wet, icy, muddy, or water. Avoid excessive speeds that can be associated with downhill rides. Never ride on damaging surfaces such as carpet or flooring by use of scooter indoors. Do not ride at night or in low visibility.

**PROPER RIDING ATTIRE**  
Always ensure child is wearing proper protective equipment such as an approved safety helmet. A helmet may be legally required by local or regional laws in your area. A child must always wear shoes, never ride barefooted or in sandals, and always use shoes as one of the way of the wheels.

**FAILURE TO USE COMMON SENSE AND READ ABOVE WARNINGS FURTHER INCREASES RISK OF SERIOUS INJURY. USE AT YOUR OWN RISK AND WITH APPROPRIATE AND SERIOUS ATTENTION TO SAFE OPERATION. USE CAUTION.**

**WARNING**  
**ALWAYS INSPECT SCOOTER PRIOR TO RIDING.** Proper inspecting and maintaining your scooter can reduce the risk of injury. Always inspect your scooter before riding and regularly maintain it.

**CHECK LOCAL LAWS REGARDING SCOOTER USE.** Check local laws and regulations to see where and how you may use your Street Surfing scooter legally. In many states and local areas, scooter riders are required by LAW to wear a helmet. Check local laws and regulations regarding laws governing helmet use and scooter operation in your area.

Bike may get hot from continuous use. Do not touch other braking.

**BEFORE YOU BEGIN**

Remove collar clamp lock. Remove the separator that protect the components during shipping. You will need to install the handlebars, locate and unlock the collar clamp, and secure the collar clamp. Check to ensure that the upper clamp and screws are installed.

**Required Tools (Included):**  
**3mm, 5mm & 6mm Allen Wrench**  
If using your own tools, we recommend the use of metric (metric grade tools).

**SETUP AND USAGE INSTRUCTIONS**

1 To adjust the height of the handlebars, unlock the steering tube by pulling outwards on the quick-release lever. Slide the T-tube to the desired position and secure by pushing inward on the quick-release lever.

2 The tension of the quick-release clamping mechanism can be adjusted by tightening or loosening the lever bolt. Be careful not to overtighten. You should always be able to open and close the quick-release lever smoothly. If the quick-release telescopic freely with the quick-release open.

**OWNER'S MANUAL COMMUTER SCOOTER**

**anako**

**ASSEMBLY INSTRUCTIONS**

3 To unfold the scooter, pull the release lever downwards toward the deck while pulling upwards on the steering column.

4 Release the lever and continue to unfold the steering column upward. Grip the handlebars and place one foot on the deck. Pull the handlebars up until the lock engages. Make sure the locking mechanism is secure in the open position before riding.

5 To fold the scooter, push the handlebars forward slightly while pulling back on the release lever. If any help of your own foot on the deck. When the release lever unlocks, pull back on the handlebars and continue folding your scooter until it lies.

**WARNING**  
**DO NOT USE NON-STREET SURFING PRODUCTS WITH YOUR SCOOTER.** Street Surfing scooters have been built to certain design specifications. The original equipment supplied at the time of sale was selected on the basis of its compatibility with the frame, fork and all other parts. Certain aftermarket products may not be compatible. Failure to properly engage the quick-release clamps may cause the T-bar to telescope up or down while riding, which may cause you to lose control and fall. With the quick-release properly adjusted and engaged the T-bar will not move up or down in normal use. Keep your fingers clear of the folding mechanism when folding or unfolding the scooter make sure others are standing clear. Failure to properly install and tighten the handlebar T-tube clamping tube clamp may cause the tube to lose control and fall. **Assembly must be performed by a professional mechanic or repairer.** If you do not understand these instructions or the concept of "lightning security", see the assistance of a qualified mechanic.
