How To Mould

CONTENTS:

- 2 x 100g bags of plaster
- 1 x 6 character mould tray
- 1 x carving tool
- 1 x bowl
- 6 x 2mL paint pots
- 1 x paint brush

SET UP:

1. Put down some newspaper or plastic covering on a flat surface that you can use as your work area.
2. Put on an apron or a smock to protect your clothing.
3. Have all the tools you need at the work area.

DIRECTIONS:

<p>STEP 1</p>  <p>Pour the plaster powder into the bowl and add small parts of water at a time while stirring with a spoon (not included) until it forms a paste-like consistency. You will need to stir the plaster quickly, as it will normally start to harden in 5-10 minutes.</p>	<p>STEP 2</p>  <p>Quickly pour the plaster mixture into the mould tray and gently agitate the mould to eliminate air bubbles. Allow 24 hours to dry. Drying times may vary. Make sure the plaster feels dry.</p>	<p>STEP 3</p>  <p>Once the plasters are dry, gently tap the outside of the tray and release the shaped plasters out. Be careful to avoid breakage. Use the carving tool to smooth the edges. You are now ready to paint your shaped plasters.</p>
