LITHIUM BATTERY CHARGE INSTRUCTIONS

Attention: Do not charge battery immediately after each play, let the battery cool down for a while.

1. Turn off the dog.
2. Unscrew to open the battery cover and separate the rechargeable battery pack from the connector.
3. Plug the charger into a USB port and battery as shown. (The battery connector will only fit in one way. Do not force the connectors together). The LED light will light up when charging. When it has finished charging, the light turns off.
4. Charging time: approximately 60-90 minutes.

POWERING ON YOUR DOG

Once you have inserted batteries into your dog and remote control, you can go ahead and power on your dog. To do so, slide the ON/OFF switch located on the bottom of the dog to the ON position.

When you do not operate the dog for about 30 seconds, it will make a sound to remind you. When you do not operate the dog for about 2 minutes, it will make a sound and enter sleep mode. When your dog is in sleep mode, you can restart the ON/OFF switch at the bottom of the dog to resume use.

When you have finished playing with your dog, slide the ON/OFF switch to the OFF position.

NOTE: When your dog is turning low on power, the volume of the dog will drop, the light will dim or some of the functions will not be available. Once the batteries are completely depleted, charge the battery of the dog and replace the batteries of the remote control as soon as possible to continue use.
