### Advice For Supervising Adults

1. "WARNING!" Only for use by children over 10 years old. To be used solely under the strict supervision of adults that have studied the precautions given in the experimental set.
2. "CAUTION!" Contains some chemicals which are classified a safety hazard.
3. "Read and follow these instructions, the safety rules and the first aid information and keep them for reference.
4. The incorrect use of chemicals can cause injury and damage to health. Only carry out those experiments which are listed in the instructions.
5. This chemistry set is for use only be children over 10 years.
6. Because children's abilities vary so much, even within age groups, supervising adults should exercise discretion as to which experiments are suitable and safe for them. The instructions should enable supervisors to assess any experiment to establish its suitability for a particular child.
7. The supervising adult should discuss the warnings and safety information with the child or children before commencing the experiments. Particular attention should be paid to the safe handling of acid, alkalis and flammable liquids.
8. The area surrounding the experiment should be kept clear of any obstructions and away from the storage of food. It should be well lit and ventilated and close to a water supply.  
A solid table with a heat-resistant top should be provided.
9. The disposal of used chemicals shall be handled properly and complied with your local law.
10. Eye protection for supervising adults is not included.

### Safety Rules

Do read these instructions before use, follow them and keep them for reference.
