

# CROSS-COUNTRY JEEP

## Instruction Manual

### Contents:

RC vehicle X 1

RC transmitter X 1

### Battery requirement:

Vehicle: 4 X 1.5V AA alkaline batteries(not included)

Transmitter: 2 X 1.5V AA alkaline batteries(not included)

### How to play:

1. Install new battery with correct polarity(+/-) inside both battery compartment.
2. Switch ON the vehicle.
3. Drive the vehicle forwards or backwards by pushing the joystick forward or backward.
4. Push joystick left or right to move the vehicle left or right.
5. Remember to switch OFF on the vehicle power after playing.

### Performance tips:

1. Do not go through water.
2. Do not drive in windy or rainy weather.
3. Avoid direct impact with obstacles.
4. Switch off the vehicle when not in use.
5. Keep fingers, hair and loose clothing away from the wheels.
6. The operating range can be affected by a variety of factors:
  - a) Weak vehicle's batteries.
  - b) Interference from other items that emit radio frequency signals such as another R/C item on the same frequency, CB radios, cordless phones, high voltage transformers, etc.
7. Outdoor usage is recommended in order to get optimal control range.
8. Do not drive the vehicle on grass, sand, rocks or go through water.
9. Do not drive the vehicle into any hard object.

### Battery use

1. Alkaline batteries are recommended to use.
2. Only batteries of the same or equivalent type as recommended are to be used.
3. Do not mix alkaline, standard or rechargeable batteries.
4. Do not mix old and new batteries or different type of batteries.
5. Non-rechargeable batteries are not to be charged.
6. If rechargeable batteries are used, they are only to be charged under adult supervision.
7. Rechargeable batteries are to be removed from the product before they are charged.
8. Be sure to insert batteries with the correct polarities and always follow the battery manufacturer's instruction.
9. Remove all batteries from the vehicle and transmitter when not in use.
10. Exhausted batteries are to be removed from the product.
11. The supply terminals are not to be short-circuited.
12. Dispose of batteries properly. Do not dispose the batteries in fire----it may cause them to explode or leak causing injury or damage.

### Cautions

1. Do not attempt to disassemble the products.
2. Do not operate the vehicle with same frequency as another player in same location that will interfere and make the vehicle out of control.
3. Make sure the batteries are installed with correct polarity(+/-) as shown inside the battery compartment.
