

Instruction Manual

3+
AGES

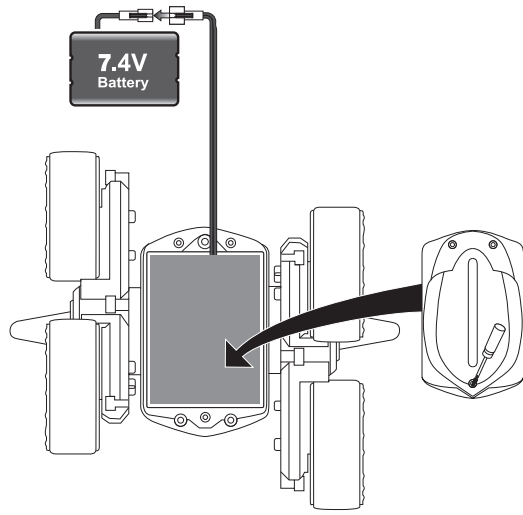

Thank you for choosing our product! Please read this instruction manual carefully before using, as it contains all the information you need to know about how to use this product.

Colours And Contents May Vary From Illustration.

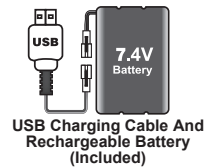

2.4GHz
FREQUENCY

Battery Installation

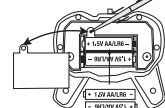

7.4V Rechargeable Battery (Included)

USB Charging Cable And Rechargeable Battery (Included)

Replacing batteries of the transmitter

• Controller requires 2 x 1.5v AA batteries (included)

Charging Method :

1. Turn off the vehicle, unscrew to open the battery cover and disconnect rechargeable battery pack.
2. Plug USB charger into computer or USB adaptor, and then connect to rechargeable battery. The USB charger will light up when it is charging, and it will turn off when charging is complete.
3. Disconnect USB charging cable and battery. Install battery to vehicle and replace battery door.
4. Charging time: approximately 2 - 2.5 hours. Play time: approximately 10-12 minutes.

Attention: Do not charge battery immediately after each play. Let the battery cool down for a while.

Remote Control Operation

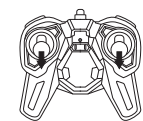

Pairing Instruction

1. Turn on vehicle first and then turn on transmitter.
2. When the light on the vehicle stops flashing, this means they are matched.
3. If you have more than two vehicles, please pair one by one. When the second vehicle is pairing, please always keep the first vehicle and transmitter on.

CAUTIONS

When the car is in motion, do not touch the wheels by hand to avoid damages to the car.

When there's more than one car played in the same place, set the cars to different frequency to avoid mutual interference.

Do not play on the roads or in any other dangerous places to avoid accidents.

Do not bend the antenna or point it at other people or articles to avoid injury.

Do not play in puddles, mud or sand.

BATTERY SAFETY

- (1) The placement or replacement of batteries is to be performed by an adult.
- (2) Remove the rechargeable battery from the chassis before charging.
- (3) Always remove exhausted batteries from the car and the transmitter.
- (4) Make sure the main switch is set to OFF before installing the battery pack into the car body.
- (5) Batteries must be inserted with the correct polarity.
- (6) Non-chargeable batteries shall not be recharged.
- (7) Do not short-circuit the batteries.
- (8) Always remove the batteries from the car and the transmitter after playing.
- (9) Never throw the batteries into fire to avoid explosion or leakage.
- (10) Do not mix batteries from different producers or new and old batteries.
- (11) You should only use batteries of the same or equivalent types as recommended.
- (12) Check the batteries on a regular basis to avoid leakage.
- (13) Keep this manual well for future reference as it contains important information about this product.
