

# MY FIRST FRAME POOL

## OWNER'S MANUAL

No Jumping  
Shallow Water

No Diving  
Shallow Water

Packaging must be read carefully and kept for future reference.

### WARNING

- The safety of your children depends only on you! Children under 5 years old at greatest risk.

#### - Supervise and take action:

- Always supervise children from nearby;
- Assign at least one person in charge of the safety;
- Increase supervision if there are several people in the swimming pool;
- Wet your neck, arms and legs before entering the pool;
- Learn the necessary rescue operations, especially those relating to rescuing children;
- Prohibit diving and jumping;
- Prohibit running and playing games on the edge of the swimming pool;
- Do not leave toys near or in an unsupervised swimming pool;
- Always keep the pool water clean;
- Keep the products needed for water treatment outside the reach of children;

- Place an accessible telephone near the pool so that the children will never be out of supervision when you are on the phone. In any case this doesn't replace a close supervision;

#### - In case of accident:

- Take all the children out of the water immediately.
- Call for emergency support and follow their instruction/advice.
- Replace wet clothing with dry clothing.

### General Warning

Never leave your child unattended – drowning hazard.

- Only for domestic use.
- Only for outdoor use.
- Children can drown in very small amounts of water. Empty the pool when not in use.
- Do not install the paddling pool over concrete, asphalt or any other hard surface.
- Place the product on a level surface at least 2 m from any structure or obstruction such as a fence, garage, house, overhanging branches, laundry lines or electrical wires.
- Recommend back towards the sun when playing.
- Modification by the consumer of the original paddling pool (for example the addition of accessories) shall be carried out according to the instructions of the manufacturer.
- Keep assembly and installation instruction for future reference.

| Ref# | Description       | Quantity |
|------|-------------------|----------|
| A    | Top Rail          | 6        |
| B    | Vertical Pool Leg | 6        |
| C    | Connector         | 6        |
| D    | Bolt              | 6        |
| E    | Footing           | 6        |

### Preparation

A single-handed installation of a small swimming pool usually takes only 10 minutes. Recommendations regarding placement of the pool:

- It is essential for the pool to be set up on solid, leveled ground. If the pool is set up on uneven ground it can result in collapse and flooding, causing serious personal injury and/or damage to personal property. Setting up on uneven ground will void the warranty and service claims.
- Do not set up on driveways, decks, platforms, gravel or asphalt. Ground should be firm enough to withstand water pressure; mud, sand, soft / loose soil or tar are not suitable.
- Ground must be cleared of all objects and debris including stones and twigs.
- Check with your local city council for by-laws relating to fencing, barriers, lighting and safety requirements and ensure you comply with all laws.

### Installation

Assembly can be completed without tools.

**NOTE:** It is important to assemble pool in the order shown below. Adult assembly required.

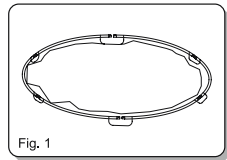

Fig. 1

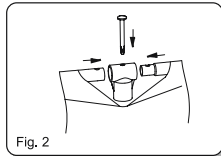

Fig. 2

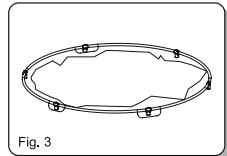

Fig. 3

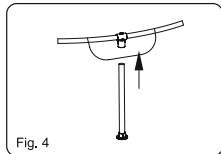

Fig. 4

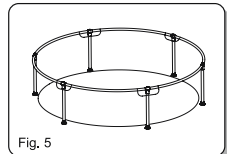

Fig. 5

1. Take the pool and accessories out of the carton with care. Spread the pool out onto the selected site.
  2. Close the water valve.
  3. Insert all the Top Rails into the pole sleeve on the top of the pool. (Fig.1)  
Please see the structure photo for detailed directions.
  4. Insert both ends of Top Rails into the Connector. Then insert Bolt into the top of the Connector. (Fig.2) Repeat this procedure for remaining parts. (Fig.3)
- Note:** In each Connector, ensure both Top Rails are properly inserted.
5. Attach all Footings to the bottom of the Vertical Pool Legs. Then insert the Vertical Pool Legs into the bottom of the Connectors. (Fig.4)
  6. Test frame to ensure all connections are secure before filling with water. (Fig.5)
  7. Add 1" (2 cm) of water into the pool to cover floor. Once pool floor is slightly covered, gently smooth out all wrinkles. Start at the center of the pool and work your way clockwise to the outside.
  8. Continue to fill the pool until it reaches the water fill line located on the pool's interior. Please kindly pay the utmost attention to not over fill the pool for security reasons.

#### Dismantling

1. Open water valve on the bottom of the pool, water will drain automatically. (Check local regulations for drainage by-laws). Then dismantle pool frame to release water. Make sure you release most of the water within 20 minutes.

**Note:** Only adults should drain the pool!

2. Air dry the pool.

**ATTENTION:** Do not leave the drained pool outside.

#### Repair

If your pool is damaged, use the provided repair patch.

1. Clean area to be repaired.
2. Carefully peel patch.
3. Press patch over area to be repaired.
4. Wait 30 minutes before inflation.

#### Pool Maintenance

**Warning:** If you do not adhere to the maintenance guidelines covered here in, your health might be at risk, especially that of your children.

- Change the pool water frequently (particularly in hot weather) or when noticeably contaminated, unclean water is harmful for the users.
- Please contact your local retailer for chemicals to treat water in your pool. Be sure to follow the chemical manufacturer's instructions.
- Proper maintenance can maximize your pool's lifespan.
- See packaging for water capacity.

#### Cleaning and Storage

1. After use, clean surfaces gently with a damp cloth.

**Note:** Never use solvents or other chemicals that may damage the product.

2. Remove all accessories and spare parts of the pool, clean and dry them.
3. Once pool is completely dry, sprinkle with talcum powder to prevent the pool from sticking together and fold the pool carefully. If pool is not completely dry, mould may develop, which will damage the pool liner.
4. Store liner and accessories in a cool, dry place out of children's reach, with a moderate temperature between 5°C / 41°F and 38°C / 100°F.
5. During rainy season, pool and accessories should be stored as instructed above.
6. Improper draining of the pool might cause serious personal injury and/or damage to personal property.
7. Check the product for damage at the beginning of each season and at regular intervals when in use.
