

29.7 x 21cm

INSTRUCTION

SET UP

Before open the screen, please make sure the place is big enough.
Take out all components.
Open the screen and base.

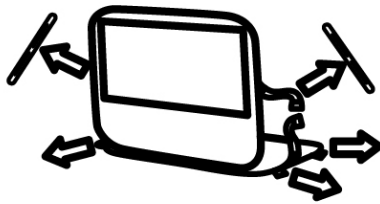

4 Velcro stickers on the bottom

Fix the two parts by using the hook and loop fasteners on the connected parts.
Fix the belly band.
Connect the support bar and put it into the holes on belly band.
Adjust the belly band length.

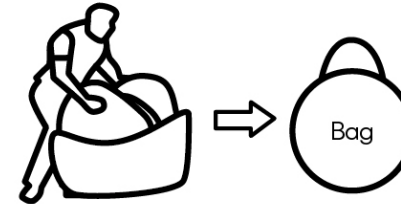

Using some heavy goods to put on the base to make it strong enough.

Take out the metal stick and loose all belly band, separate all components

Turn around to make a circle for the screen and base

Put all components into the bag.

Twist the pieces together in an "8" shape

Turn the figure 8 head to the center

Compressed up and down, stacked together in 3 layers
