- Check blanket and 12V DC auto adapter regularly for damage.
 Keep the blanket dry, clean and free from oil and grease. Always use a clean cloth when cleaning
- 4. Keep the 12V DC auto adapter dry, clean and free from oil and grease.

Many 12-volt power outlets continue drawing electricity when the engine is turned off or when the key is removed from the ignition. Do not use the blanket for children/infants/pets, or anyone incapable of unplugging the blanker without assistance.

CAUTION! NEVER USE AC CURRENT TO POWER THE BLANKET.

Use only with fused 12-voly DC power supply outlets.

Be careful not to close a door on the power cord or the blanket itself as this may result in a short circuit of either the blanket or of the vehicle's power supply outlet or many results in electrical shock or fire.

If the cord or blanket appears damaged, do not use the blanket. Inspect often for rips and tears.

To protect against electrical hazards, do not use the blanket if it is wet damp or near water or other liquids.

Do not immerse plug or unit in water or other liquids.

Replace with 5-amp fuse only.

The blanket should not be used for applications other than its intended use. Keep away from heat or flame.

USE WITH ADULT SUPERVISON ONLY. DO NOT USE AS A WARMING BLANKET FOR INFANTS OR CHILDREN 3 YEARS OF AGE.
