

OWNER'S MANUAL

Model No. P3073

READ CAREFULLY BEFORE OPERATING AND SAVE THESE INSTRUCTIONS.

WARNING

1. If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
2. Motor run time should not exceed 5 minutes. Operator should allow motor to cool for 5 minutes between uses.
3. **WARNING** - This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision. (For EU market)
This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance. (For market other than EU)

NOTE: This product is not intended for commercial use.

NOTE: Drawings for illustration purpose only. May not reflect actual product. Not to scale.

CLEANING & STORAGE

1. If product gets dirty, use a clean damp cloth and wipe gently on the air bed surface. Do not use harsh detergents to clean. Fold and store after product is dried.
2. Before storing the product, release all the air. Store in a cool and dry place.
3. Do not place sharp or heavy objects near or on top of the mattress. Doing so will cause damage and tears.

-  — Green light: Inflation is complete and the airbed has reached optimal air pressure.
Green light flashing: The power is on and the airbed should be inflating.
-  — Blue light: The secondary pump has turned on and will auto-inflate your airbed to designated air pressure chosen prior.
Both green light and blue light flashing: The airbed cannot reach designated air pressure level. Check airbed to ensure the valve is tightened and there is no possible leak.
-  — USB port.
Specification: DC 5V 1A
The USB port can be powered when the pump plugs into the socket.
-  — Night light
