

- For better preservation of rechargeable batteries, please regularly recharge it, and only a charger of the same or equivalent type is recommended to be used.
- Dispose of batteries responsibly, do not dispose of in fire.

# INSTRUCTIONS

This manual is applicable to the following types of product:

15000,26010,26910,35400,36000,36200,36500,38800,39000,39001,39700,39800,39900,40100,40200,44300,44500,44700,46100,46200,46300,46400,46500,46600,46700,46800,46900,47000,48100,48200,48300,48400,48500,48600,48700,48800,48900,49000,71200,71400,71410,71500,71600,71700,71800,71900,72000,72100,72200,72300,75200,76000,76100,76200,78200,78800,79300,95800,96100,96110,96200,96700,97600,97800.

Frequency bands: 2400MHz to 2483.5MHz

Maximum Transmitting Power (EIRP) : Not more than 10mW.

**! WARNING:**  
This toy produces flashes that may trigger epilepsy in sensitised individuals.

**! WARNING:**  
CHOKING HAZARD-Small parts.  
Not for children under 3 years.

The instruction has to be kept since it contains important information.

- When your vehicle starts to lose power, it may lose its functions or performance. This indicates that it's time to refresh your batteries or recharge them.

- Don't drive your vehicle in sand, through water or snow.

- Point your transmitter antenna up not down toward your vehicle. If your vehicle gets too far away, it won't work properly. If your transmitter has an antenna carry-loop feature, make sure the antenna is removed from the holder and straightened before operating.

- Do not operate your car on the streets where people gather or under high voltage wires. Stay safe!

- Don't put your vehicle near heat or in direct sunlight. Always turn switches OFF after operating.

## MAINTENANCE

- Remove the batteries when the unit is not in use for long periods of time.
- Clean the vehicle with a soft cloth.
- Avoid being heated or being exposed to strong sunlight.
- Keep dry.
- Remove the space regularly examine the toy for any damage to its wires, plug, enclosure and other parts and they must not be used until the damage has been repaired.

## OPERATION GUIDE

①

②

Switch on

③

LED indicator blinks

When LED indicator goes out, pairing process is completed.

- The fixing piece for chassis can be used to twist the lock of the battery cover, please see the picture on the right. See picture 1.
- Please open the lid and put 3 X AA batteries into the car according to its polarity, then close the lid.
- Please open the lid and put the 2 X AA batteries into the controller according to its polarity, then close the lid and rotate the knob to lock the battery cover. See picture 1.
- Every time before playing, the transmitter needs to pair with the model car as follows:
  - ◆ The LED indicator on the transmitter will blink and ready for pairing. Switch on the model car, the LED on the transmitter will go out. This means the pairing process is completed. Then the model car can be fully controlled by the transmitter. See picture 3.
- Adjust the direction adjustment switch to control the car running in a straight line.
- Please replace battery when LED indicator becomes dark which means low battery.
- The speed of model car will slow down when battery is low. Please replace then.
- 2.4GHz transmitters are compatible to control several model cars at same time without interference, provided that the pairing process is orderly done one by one following above steps. That is, first transmitter finishes pairing with first model car and keep their power on, then second transmitter can begin to pair with second model car...
- Please turn off the model car after playing.

## FEATURES & FUNCTION

This product uses 2.4GHz communication technology, which is compatible for multi-device and multi-user, with fast response speed, high response precision, and strong anti-interference capability.
