To assemble Wheels...

1

1a. Place Stroller Board face down.

1b. Push and hold wheel release button whilst inserting Wheel into mounting hole.

1c. Release wheel release button to secure.

1d. Repeat for the second wheel.

To assemble Extension Arms...

1

1a. Loosen thumbscrews.

To assemble Extension Arms Continued...

1

- 1b. Ensuring the mounting post is facing away from the Stroller Board, insert the Extension Arm into the Stroller Board.

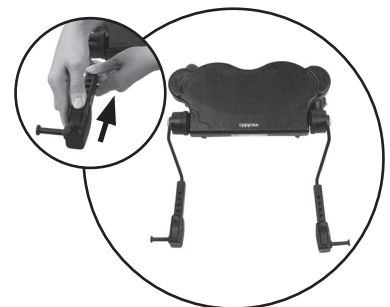

- 1c. Slightly tighten the thumbscrew until the mounting arm is held in the Stroller Board slot.

- 1d. Adjust the horizontal slider on the Extension Arm to the shortest possible position, as close to the back of the stroller as possible.

- 1e. Repeat for the second Extension Arm.

To install on the Stroller...

1

- 1a. Pull apart the attachment straps and wrap them around the rear leg of the stroller frame at the lowest possible point.

ENSURE: the straps and bracket does not interfere with the operation of the brake or any other moving parts.

To install on the Stroller Continued...

1

- 1b. Align the teeth of the two straps and feed the spindle end through the Attachment Bracket until the strap spindle comes through the back of the Attachment Bracket.
- 1c. Secure the Attachment Bracket by screwing the Attachment Strap Thumbscrew onto the strap spindle until fully tightened and secure.

PLEASE NOTE!

If the Attachment Bracket is still not tight on the Stroller rear leg after assembly, please undo the Strap Thumbscrew and remove the Attachment Strap.

Take scissors and shorten the straps using the below formula. Repeat for the second attachment strap. Ensure all straps are cut to the same length.

Re-fit straps and attachment bracket, ensuring the bracket is tight on the Rear Stroller Leg and does not move.

Please take care when performing this step to ensure the straps are not cut too short and are not able to be assembled correctly.

Formula for shortening straps:

Measure the circumference of the Stroller Rear Leg. Subtract this number by 12, then divide by 2. (Example: If your stroller leg circumference is 9cm, $12-9=3$. Divided by $2=1.5$. You will need to cut off 1.5cm from both sides of the attachment strap.

- 1d. Repeat steps 1a-1c for the remaining Attachment Strap and Attachment Bracket.

- 1e. Flip Stroller Board and align Extension Arms with the Attachment Brackets on the rear of the Stroller.

- 1f. Ensure the mounting posts of the Extension Arms align with the mounting slot on the assembled Attachment Brackets.
If necessary, adjust the width of the Extension Arms in or out of the Stroller Board to ensure the correct alignment.

- 1g. Attach the Extension Arms to the Attachment Brackets by pushing the mounting posts down and into the mounting slots until they lock in and are secure.

To install on the Stroller Continued...

1

- 1h. Fully tighten the thumbscrews for the Extension Arms until secure.
- 1i. Ensure the Stroller Board is sitting level and both Wheels are touching the floor.
If adjustment is required, press and hold both of the Board Adjustment Buttons and lift or lower to correct position. Release buttons to secure.

ENSURE: all thumbscrews are tight and secure before use.

ENSURE: all components are assembled and secured correctly before use.

The stroller board is now ready for use.

To store the Stroller Board...

1

- 1a. Attach the Storage Strap to the handle of your Stroller by wrapping the webbing around the handle and securing with the buckle.
- 1b. Raise the rear of the Stroller Board up toward the handle and secure by inserting the Storage Strap Clip into the rear of the Stroller board.

To store the Stroller Board Continued...

1

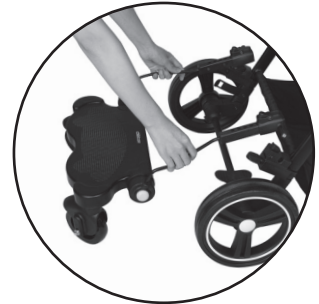

- 1c. Tighten webbing strap so that the Stroller Board is stored in the most upright position.

To remove Stroller Board...

1

- 1a. To remove Stroller Board from Attachment Bracket, slide locking button on top of Attachment Bracket down whilst pulling Extension Arm mounting posts up and out of Attachment Bracket.

Cleaning

To ensure the long-lasting use of your stroller board, dry it with a soft absorbent cloth after use in rainy weather. Use a damp cloth with warm water to clean if required. Do not use abrasive cleaners.

Maintenance

Check stroller board regularly to ensure that locking devices and components are secure and working properly. Always check parts regularly for tightness of screws, nuts and other fasteners – tighten or replace if required. To maintain the safety of your stroller board, seek prompt repairs for bent, torn, worn or broken parts. Use only those parts and accessories approved by CNP Brands.
