

Double Wall Travel Cup

Take your favourite drink on the go with this durable travel cup. Each one comes with a stainless steel infuser tucked inside the lid so you can watch those flavours infuse. Its mighty size also means you can top your brew with ice for a refreshing iced tea!

Assembly Instructions:

1. Unscrew the insert and infuser from the lid and add two teaspoons of loose-leaf tea to the infuser or pop in a tea bag.
2. Fill cup with hot water. Attach the infuser into the insert and then screw into the lid.
3. Screw the lid onto the cup, **leaving the sipper lid open to allow the steam to vent.** You can choose to either remove the tea once it has reached desired flavour intensity or keep the tea/tea bag in the infuser for a stronger taste.
4. Perfect for tea or coffee!

CARE INSTRUCTIONS:

Wash before first use. Glass body is microwave safe and suitable for dishwasher, top shelf only. Remove infuser and lid before putting in microwave. Do not use abrasive cleaners or scourers. To avoid fracturing the inner wall, please take care when using metal spoons or ice cubes.

More information about this product for your reference:

DOUBLE WALL CONSTRUCTION FOR BETTER INSULATION – Your favourite tea or coffee will remain fresh & hot, and your hand will stay cool with the dual insulation coffee mug – also keeps iced beverages colder for a longer period of time while the outer glass wall remains comfortable to touch and reduces condensation.
