3.3 Charging Your Wireless Charging Enabled Device

1. Place your wireless charging device on the centre of the charging location.
2. The charging indicator light will turn Blue when charging.
3. When your device is fully charged, the indicator light will turn off.
4. If the Blue indicator light is flashing, your wireless charging device has not been placed on the charging area correctly.

Note: Fast charge won't work when you are using the wireless charging and the USB charging at the same time.

3.4 Charging Do's & Dont's

- If your device supports fast charging we recommend that you use an 3.0 adapter that has Qualcomm Quick Charge technology.
- Do not use in a hot, humid or corrosive environment.
- Do not place the wireless charger too close to magnetic stripes or chip cards.
- Please keep the wireless charger at least 20cm away from any implantable medical devices (pacemakers, implantable cochlear, etc.)
- Keep away from children.
- Do not use a metal case for your smartphone when using the wireless charger.
- For optimum charging times make sure that your device is not in a protective case that is more than 2mm thick, and that it is positioned in the centre of the wireless charger.
- Remove your smartphone from the wireless charger when fully charged.
