5. Mouse and keyboard will connect automatically and can be used immediately.

Notes On Batteries
Only use top-quality batteries. Cheap batteries could leak and damage the device as a result.
If the batteries leak, remove them with a cloth and dispose of them accordingly.
Ensure that leaking battery acid does not come into contact with skin and eyes. If you do get battery acid in your eyes, flush them thoroughly with lots of water and consult a physician immediately! If battery acid comes into contact with your skin, wash the affected area with lots of water and soap.
If the device is not to be used for an extended period of time, then the batteries should be removed, as the device could become damaged should they leak. If the device functions weaken, replace all batteries.
Batteries do not belong in household waste! Expired batteries must be disposed of in an environmentally friendly way and according to the applicable legal regulations. Batteries are very dangerous if swallowed. Please keep the batteries and the device components away from children at all times. If a battery is swallowed, seek medical attention immediately.
Batteries must not be recharged or activated with other means, dismantled, thrown into fire or short-circuited.
Remove the batteries prior to disposing of the device.

Keyboard Connect:
"ESC"+"=":
When the keyboard does not match the receiver,please insert the keyboard battery first,then press "ESC" and"="key at same time,until the up right corner battery indicator light turns on.
Plug the USB receiver into the computer.
The keyboard will successfully connect to the computer if the indicator light turns off.

Please note this step is only for the keyboard which is not match the receiver successfully. Generally plug the receiver to the computer,the keyboard can directly connect to the computer. And this step can not be used in other brand of receiver and keyboard.
