BALLOON STAND

Contents:

Instructions:

Step 1. Fill the base with water to keep the column sturdy.

Step 2. Connect 3 vertical poles (Part B) by straight connectors (Part C) and insert to the base (Part A).

Step 3. Connect the 6 round tubes (Part D) creating a circle. Complete the circle by connecting the T connector (Part E) to the last 2 tubes.

Step 4. Insert the T connector (Part E) into the vertical column to finish.

Important:

1. Adult assembly is required.
2. To avoid losing stability, please ensure that the pole, tubes and T-connector are all connected correctly.
