DIY Punch Needle Photo Frame

Kit Includes

- >1x 20cm embroidery hoop
- > 4 x coloured yarns
- >1x backing fabric
- >1x punch needle
- >1x threader
- >1x wooden photo frame
- > 20 x double sided tape strips
- >1 x instruction sheet

Tips

- Prepare the fabric on the embroidery hoop by separating the 2 circles and laying the fabric over the inner one. Place the larger circle over the top and press down to secure the fabric. Tighten the screw and gently pull the fabric edges to ensure it's taut. Do not pre wash the fabric.
- Begin your punch needling by following the guide image for
- The needle must be pushed all the way in on each stitch to create an even look.
- If you make a mistake, simply pull the yarn back out and brush your hand over the fabric to even the holes.

Guide Image

How To Thread A Needle

Insert the threader into the punch needle from the needle point and completely through the barrel until it comes out the opposite end of the tool

Insert the yarn through the threader loop at the top of the tool, then pull the threader back out of tool through the needle point

Pull the uarn out of the threader. leaving the yarn hanging out of the needle point.

Take the loose yarn and thread it through the eye of the needle using the threader tool as shown, or by hand.

Loop Stitches

Pull a 2 inch tail of yarn through the eye of the needle and punch the needle completely through the fabric, leaving the yarn tail on your working side.

Lift the needle out of the fabric just enough to move to the next stitch. Keep the needle as close to the fabric as possible. The flat stitches will create loops on the back side of your fabric.

Continue punching flat stitches in the direction that the design requires. To change colour or to complete the stitches, gently pull the needle out and cut the yarn. Once complete, flip the fabric over to reveal the loop stitches.

How To Make The Photo Frame

On the back side, fold the excess fabric as shown. Stick the fabric down using double sided tape.

Then, attach more double sided tape on top of

Flip the fabric back over to the front side. Press the taped side down onto the wooden photo frame to attach the fabric. Once complete, insert a photo and display your frame.
