

DIY Macrame Plant Hanger

Kit Includes

- > 1 x macrame cord
- > 1 x wooden ring
- > 1 x comb
- > 1 x instruction sheet

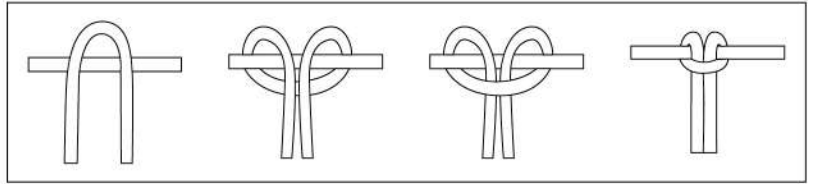

Tips:

- Tie knots firmly, yet gently enough that the cord maintains its shape. Pull evenly with both cord ends. Nest knots snugly without crowding.
- For a uniform look, tie knots in a consistent manner.
- Macrame basket fits 10cm-11cm pots

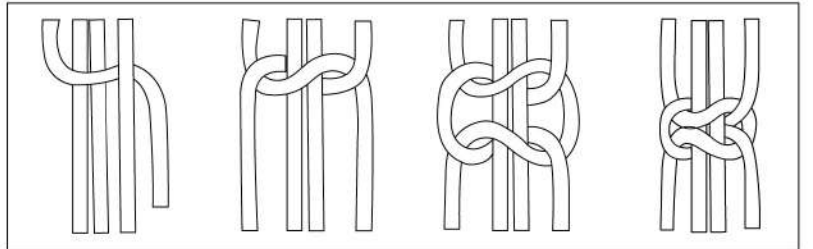

Cut The Cords

Square Knot (SK)

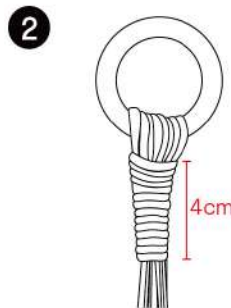

Half Knot (HK)

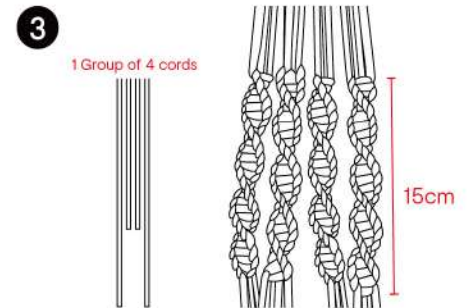

Gathering Wrap

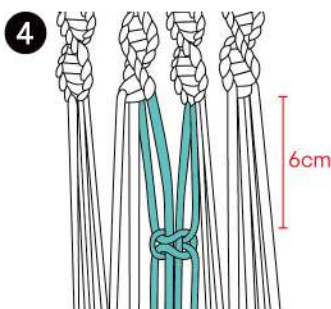

Take 8pcs 250cm cords and thread them through the wooden ring, leaving one side 50cm longer as shown. There will be 16 single cords hanging from the wooden ring.

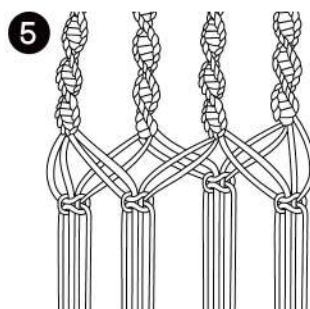

Take 1pc 90cm cord and make a gathering wrap under the wooden ring. Trim off the excess cord used for your gathering wrap.

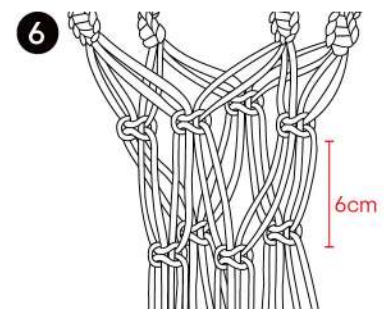

Divide the 16 cords into 4 groups of 4 cords. Each group should consist of 2 short cords placed in the centre, and 2 long cords, 1pc either side as shown. Measure 15cm below the gathering wrap and begin making half knots on one of the groups of cords. Continue making half knots, creating a spiral pattern 15cm in length. Repeat for all 4 groups.

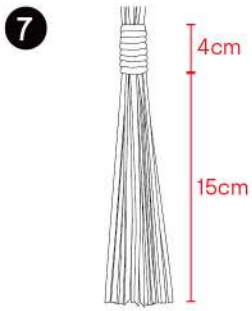

Join the 4 hanging groups together by taking 4 cords from 2 groups, (2 from each) as shown. Measure 6cm below the half knots and tie a square knot.

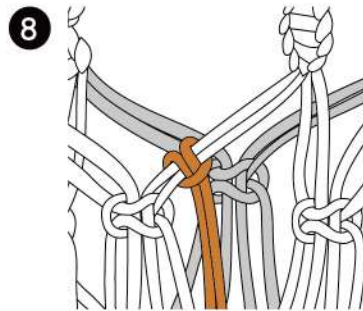

Repeat step 4 and make another 3 square knots, joining all of the groups to complete the 1st row.

Repeat step 4 and make the 2nd row of square knots, 6cm below the 1st row.

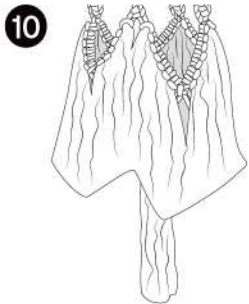

Measure 6cm below the 2nd row of square knots. Take 1pc 90cm rope to make a 4cm gathering wrap. Then, trim the cord ends to make a 15cm hanging tassel.

Take 1pc 30cm cord and tie a LHK- bar in front on the top row, between a half knot and a square knot as shown.

Repeat step 8, knotting the remaining 30cm cords to the top row. The cords should be spread evenly, using 7 cords per section.

Trim the hanging cords to 15cm length. Use the comb to brush through each hanging cord end to create fringing. Hang your macrame plant hanger to display indoor plants. Macrame basket fits 10cm-11cm pots.
