

Crystal Candle Instruction Manual

Kit Includes

- › 340g soy wax
- › 1 x large glass jar
- › 3 x bags of crystals
- › 2 x wicks
- › 2 x wick holders
- › 1 x wooden stick
- › 2 x glue dots
- › 1 x instruction sheet

Tips

- › Keep the jar still during the setting process, ensuring the bottom of the candle is flat.
- › Pour the wax into the jar in three stages. Tap the jar during the pouring process to reduce air bubbles.

How To Make A Crystal Candle

1

Secure both wicks on the base using the glue dots. Place both wick holders on top of the jar and secure the wicks in place.

2

Add 340g soy wax to a heat resistant container, heat and stir well with a wooden stick until all the wax is melted.

3

Cool the wax for a few minutes, then pour it into the jar in 3 stages. Fill the jar until 2/3 full. Allow the wax to set completely.

4

To add the crystal stones, re heat the remaining wax and pour it into the jar.

5

Before the wax sets, scatter the crystal stones in your desired placement. Ensure each stone is touching the wax to set them in place.

6

Allow to set and remove the wick holders. The candle is ready to use or display.
