

# INSTRUCTION SHEET

## How To Tie Dye Your Unicorn

### Contents:

1 x Unicorn Plush, 1 x Bag Of Stuffing, 1 x Pair Of Gloves, 10 x Elastic Bands, 3 x Tie Dye Bottles And 1 Shaker Ball With 3 x Caps

### Instructions

1. Pre wash unicorn plush to remove anything that will prevent the dye from absorbing in. Allow to dry.
2. Use newspaper or a protective cover over your work area before you start. An optional layer of paper towels may be used to soak up any water spillage.
3. Wear old clothing or use an apron to cover your clothing.
4. Wear the protective gloves included in the set.
5. Select your first tie dye colour, remove the lid and add approximately 60ml of warm water to the bottle. Tightly close the lid and shake the bottle for at least 60 seconds or until the die dye powder is completely dissolved. Leave the solution to rest for 10 minutes.
6. It is now time to prepare you unicorn plush, lay it out on your work space. Twist and scrunch your unicorn, then use the elastic bands to hold the twists firmly in place. You can use multiple elastic bands to create patterns and effects.
7. Place your tied up unicorn plush into the ball and close tightly. Seal the holes with the caps provided.
8. Remove one of the caps from the ball and pour in the first coloured dye through this opening in the ball. Fill one hole at a time, ensuring to seal each one when you finish. Once you have ensured all holes are sealed with the caps, shake the ball to colour your unicorn!
9. Open the ball to remove the unicorn and place onto your work surface. Use some paper towel to clean the inside of the ball. Remove the elastic bands from the unicorn and apply new bands around the crunched up plush to create new tie dye patterns.
10. Place the unicorn back into the ball and seal tightly. Repeat Step 5, add water into your next bottle of dye, shake well, then pour the selected colour dye back into the ball holes. Seal the hole with the caps. Shake vigorously.
11. Repeat Step 9, then Step 5 to tie dye your unicorn in the last colour of dye.
12. Cover the dyed unicorn plush with plastic wrap to keep moist and set aside for at least 6 to 8 hours. For a more intense colour, set aside for longer - overnight or 24 hours is preferable. Rinse in cold water to remove any excess dye, or until the water runs clear. Cut and discard any bands used, put the unicorn plush into the washing machine, and wash separately using minimal washing powder. use the hottest suitable temperature for the unicorn's material. Wash separately for the first 2 to 3 washes to avoid any cross dyeing.
13. Open the hole at the back the unicorn, fill with the stuffing and pull on the string to secure and close. Trim the excess string. Your unicorn is now ready to play and cuddle.

#### Tips

- Ensure work surfaces are clean and protected before use.
- Always use the protective gloves during the dyeing process.
- Add water only when prepared to start your project.
- Use dye up within 45 minutes of mixing otherwise any solution left over may lose concentration and the colour may not become as intense.
- Bind fabric as tight as possible using bands for a more distinct design.
- Ensure the wet, dyed unicorn does not come into contact with any other items.
- New colours can be created by blending dyes.
- For brighter colours, add less water into the tie dye powder, for lighter shades, add more water.
- Have fun!

Use this product under adult supervision. Don't eat or ingest contents. Please avoid direct skin contact by using the gloves provided. Keep away from eyes and mouth. Avoid eye contact. If material accidentally enters the eye, rinse well with plenty of clean water. Seek medical attention if irritation persists. In case of adverse reaction stop using the item. Wash hands after use.

Not for use for children under 3 years old.
