

Paint Your Own Embossed Flower Pot

8+
years

Instructions

1

Clean the cement flower pot with a cloth, then paint on it with the paintbrush.

2

After you have finished painting, dry the flower pot for 24 hours.

3

Place the flower pot in an oven (normal gas or electrical), but NOT a microwave.

4

Heat the mug in the oven at a temperature of 100°C / 212°F for around 25 minutes. Do not take it out immediately, allow time to cool off.

5

After cooling off, take the flower pot out of your oven.

6

Your flower pot is now complete!

PREPARATION:

1. Wear a protective apron at all times.
2. Refer to the packaging box as inspiration when painting, or create your own design.
3. Use newspaper or a protective cover on your work area before you start painting.

CAUTION:

1. Before you place the flower pot in the oven, ensure it has dried for 24 hours after you have finished painting. Paint colours will be dull if it is not completely dry.
2. Ensure to let your flower pot cool down before removing it from the oven as it will be very hot.
3. Only use a normal gas or electrical oven, NOT a microwave.

TIPS:

1. Add a couple of drops of water to any paint that may look dry or sticky.
2. Mix different paints together to create new colours.
3. If you make a mistake when you are painting, just wipe the paint off using a tissue or wash the flower pot. The paint cannot be washed or wiped off easily after baking.
4. Allow the flower pot to cool completely before use.
5. Keep the paint lids closed after use.
6. Thoroughly wash the paint brush with water after each use and before dipping it into another paint tub.
