- > 2 x bags of soy wax
- > 1 x daisy silicone mould
- > 1 x wick
- > 1 x wick holder
- > 1 x glue dot
- > 3 x wax dyes
- > 3 x wooden sticks
- > 1 x needle
- > 1 x instruction sheet

Guide Image

Tips

- > Keep the jar still during the setting process, ensuring the bottom of the candle is flat.
- > Pour the wax into the jar in three stages. Tap the jar during the pouring process to reduce air bubbles.
- > Use any remaining wax and colours to make daisy tea light.

How To Make A Daisy Candle Jar

- 1**

Secure the wick on the base using the glue dot. Place the wick holder on top of the jar and secure the wick in place.
- 2**

Add 300g soy wax to a heat resistant container, heat and stir well with a wooden stick until all wax is melted.
- 3**

Cool the wax for a few minutes, then pour it into the jar. Fill the jar until 3/4 full. Allow the wax to set completely.
- 4**

Add 60g soy wax and melt as per step 2. Add your desired wax dye colour chips and stir well with the wooden stick until the dye has dissolved completely.
- 5**

Cool the wax for a few minutes, pour the wax into the stamen part of the daisy mould and wait for cooling.
- 6**

Repeat steps 4 and 5 to pour wax into the remaining empty parts of the mould. Wait for the wax to cool completely before demoulding and revealing a wax daisy.
- 7**

Use a needle to pierce a hole in the centre of the daisy, place the daisy into the jar and pass the wick through it. Then your daisy candle jar is ready to use.
