## HOW TO LIGHT UP YOUR BALANCE BEAM

**Batteries not included. You need to prepare 3 X AA (1.5V) batteries.**

Step 1: Use tool(not provided) to loosen screws on battery compartment cover on underside of product and then release the cover.

Step 2: Insert/replace 3 X AA (1.5V) batteries as per the polarity diagram signified in the battery compartment.

Step 3: After batteries are inserted/changed, place the cover back onto the battery compartment and screw again to firmly secure the screws.

Step 4: Hold the power button to start. Step on the product to change colour. Hold the power button to stop.

**Note: Lights will automatically off if no actions for 2 minutes. Step on the product to start again.**

**WARNINGS: Insert batteries with the correct polarity and always follow the manufacturer's instructions.**

**Do not mix new and used batteries or alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.**

**Remove batteries if product will be stored for an extended period.**

**Dispose of used batteries responsibly.**

**Non-rechargeable batteries are not to be recharged.**

**Rechargeable batteries are only to be charged under adult supervision.**

**Exhausted batteries are to be removed from the toy.**

**The supply terminals are not to be short-circuited.**
